DETAILED ACTION

Specification

1. The title of the invention is not descriptive. A new title is required that is clearly indicative of the invention to which the claims are directed.

Claim Objections

2. Claim 3 is objected to because of the following informalities: The word "Acid" should be "acid". Appropriate correction is required.

Allowable Subject Matter

3. Claims 1-13 are allowed.

The following is an examiner's statement of reasons for allowance: Regarding independent claim 1, the prior art of record neither shows nor suggest a method of forming a device including emitters comprising, in part, exposing a first face of a sheet of bundled fiber segments to a reactive liquid to allow first ends of the fiber segments to react with said reactive liquid to remove material therefrom; and exposing a second face of said sheet of bundled fiber segments to a reactive liquid to allow second ends of the fiber segments to react with said reactive liquid to remove material therefrom to expose a coating material, along with the rest of the limitations of the claim.

Due to their dependency, claims 2-13 are necessarily allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. US 3,582,297; US 3,912,362; US 5,067,792; US 6,584,259 disclose the state of the art for manufacturing emitters.

This application is in condition for allowance except for the following formal matters:

Please refer to the above Office action.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
